

COVID-19 (Coronavirus) Information

The health and safety of our residents and employees is our top priority. Senior citizens specifically have a serious health risk to Covid-19 (Coronavirus). Because of this risk Heritage Community of Kalamazoo continues to follow the recommended guidance from the Centers for Disease Prevention and Control (CDC), the Centers for Medicare and Medicaid Services (CMS), and the Michigan Department of Health and Human Services (MDHHS).

- Please take a moment to review the key information and steps Heritage Community is taking. We are dedicated to communicating with residents, resident families, and staff.
- A screening process is in place for Heritage Community employees, visitors, and necessary service vendors.
- We are dedicated to adapting our practices and promoting awareness as this pandemic continues to develop.
- Symptoms of Covid-19 that are not explained by a chronic condition: fever, cough, shortness of breath, sore throat, chills or repeated shaking with chills, headache, muscle pain, or a new loss of taste or smell.

A reminder to:

1. Avoid close contact with people who are sick.
2. Wear a face mask when interacting with others.
3. Avoid touching your eyes, nose, and mouth.
4. Clean and disinfect frequently touched objects and surfaces.
5. Stay home when you are sick, except to get medical care.
6. Wash your hands often with soap and water for at least 20 seconds.

**Thank you for your support of Heritage Community and our high standards in care.
Please do not hesitate to connect with us with any questions.**
